

# SAMplicity Plus

Software Asset Management, unfortunately, isn't a one-off activity. Software changes constantly, infrastructure gets upgraded and licensing regulations change. This is where SAMplicity Plus comes in! SAMplicity Plus is a full end-to-end SAM managed service and covers all your devices, from desktops/laptops, to datacentres, hybrid & cloud environments; and can deliver against a wide range of software vendors.

During the project, you'll receive the following deliverables:

Estate Review & Gap Analysis

Second Hand Resale Report

Interactive Power BI Interface

Selected Vendor Audit Support

Product Metering Review

End of Life Product Report

Effective Licence Position (ELP)

Management Report

Management of Risk Register

Renewals Schedule

Inactive Devices/Accounts

At EasySAM, we can get you on the front foot with our ROI prediction reports - which are based on industry standards and will help you build a business case. And we are always here should you require any further assistance or collateral.

All of this  
can equal:

- ◆ Up to a 20% reduction in software related helpdesk tickets
- ◆ Becoming less attractive for targeted vendor audits
- ◆ A shortened timescale for any audits that do occur
- ◆ Increased employee productivity
- ◆ Better due diligence ahead of new/renewed agreements

*We are independent SAM consultants that have decades of experience and the variety of toolsets that go hand in hand. Flexible, proven and above all, simple to work with.*
